VOO: Strategy Evidence and Confidence Overview

Evidence labels use scale-free statistics: p-value, percentile, normalized RCSI, robustness, and stability.

Strategy	Evidence	Verdict	Confidence	p-value	RCSI	Stability
Trend	Strongly Random	Luck	High	0.991	-1.549	Stable
Mean Reversion	Strong Skill	Skill	High	0.006	0.924	Stable
Random	Strongly Random	Luck	High	0.912	-0.720	Stable
Momentum	Strongly Random	Luck	High	0.987	-1.452	Stable
Breakout	Likely Random	Luck	Moderate	0.657	-0.341	Stable

Interpretation:
Strong Skill / Skill = positive evidence that survives the random baseline.
Positive or Null-Like inconclusive labels = the signal is not strong enough for a firm claim.
Likely Random / Strongly Random = the observed result remains consistent with randomness.

VOO: Regime-Conditional Skill Index by Strategy

-0.351
Likely Random
Positive RCSI indicates performance above the simulated baseline (skill).
Negative RCSI suggests performance consistent with or below randomness.
Labels show the overall evidence class, not RCSI alone.

Strategy

VOO: Sharpe Ratio by Strategy and Market Regime

Calm, Neutral, and Stressed regimes are ordered by market volatility terciles.

VOO: Strategy Performance Across Market Regimes

Cell values show Sharpe ratios; warmer colors indicate stronger performance.

VOO: Equity Curves by Strategy

VOO: Monte Carlo Distribution of Final Returns, Trend Strategy

VOO: Monte Carlo Distribution of Final Returns, Mean Reversion Strategy

VOO: Monte Carlo Distribution of Final Returns, Random Strategy

VOO: Monte Carlo Distribution of Final Returns, Momentum Strategy

VOO: Monte Carlo Distribution of Final Returns, Breakout Strategy

VOO: Monte Carlo Robustness of RCSI Across Seeds

VOO: Monte Carlo Robustness of Actual Percentile Across Seeds

Higher values place the observed outcome deeper into the right tail of the simulated distribution.

VOO: Monte Carlo p-Value by Strategy

The dashed line marks p = 0.05. Lower values indicate stronger evidence against the simulated-random baseline. Labels show the overall evidence class.
